

P2C Allow List

Purpose

To support seamless access to instructional content and resources, IT administrators are requested to allow the following domains and addresses used by Pathway2Careers.

Domains

Please allow access to all subdomains and services hosted under the following domains:

- *.pathway2careers.com
- *.p2c.org

These domains support core instructional delivery, user authentication, and teacher and student access to the digital curriculum.

Addresses

- support@p2c.org
This email address is used for teacher technical support.
- <https://www.youtube.com/>
Pathway2Careers (P2C) embeds CareerOneStop career videos through YouTube on the Home page, Career Details page, and digital lessons. And P2C Career Story videos through YouTube on the Career Details page and digital lessons.

The “rel=0” parameter has been added to the embed code to limit the recommended videos to the CareerOneStop video’s playlist. The YouTube player provides a link to YouTube, which should be managed by a school’s firewall.

CareerOneStop is sponsored by the U.S. Department of Labor Employment and Training Administration and is a proud partner of the American Job Center Network.

The P2C Career Story videos are managed on a YouTube channel that has the audience set to “made for kids.”

External Link Guidance

Please note that some instructional materials may include links to third-party websites. These links are curated for educational relevance and are intended for teachers to display to students, not for direct student navigation.

Although we strive to include valuable and relevant content, Pathway2Careers does not control or endorse the information referenced on third-party sites. Users should critically evaluate the content and use their discretion when engaging with external materials. P2C does not assume responsibility for the accuracy, completeness, or any consequences arising from the use of these resources.

If users leave the Digital Products via a link to a third-party site, P2C is not responsible for that third-party site. Use of such sites will be governed by their respective terms of use, not those of P2C. Access to these sites does not imply endorsement.
